PROFESSIONAL SUMMARY

Software Developer with 3+ years of experience building scalable web apps with Angular 19, React.js, TypeScript, and Node.js. Delivered AI-powered features, a fast gallery for 20,000+ images, and REST APIs, working end to end in Agile teams and directly with clients.

TECHNICAL SKILLS

Frontend: Angular 19, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS.

Backend: Node.js, Express.js, FastAPI (Python), REST APIs, JWT Authentication.

Databases: PostgreSQL, MongoDB, MySQL, Redis.

State Management: RxJS, NgRx, Redux Toolkit, Angular Signals.

Cloud and Tools: AWS S3, Vercel, Render, Docker, Git, GitHub, GitHub Actions, Postman, CI/CD.

Core Competencies: Agile, Scrum, Performance Optimization, Responsive Web Design, Code Review.

PROFESSIONAL EXPERIENCE

Software Developer, Code4x (Remote, Bangalore) **Feb 2025 – Aug 2026**

- Built responsive Angular 19 interfaces for an AI-powered marketing automation platform covering content creation, scheduling, analytics, and social media management.
- Integrated OpenAI GPT and Google Gemini for content and image generation, reducing manual effort by up to 80%.
- Implemented scheduled and instant publishing across 2+ social media platforms, with dashboards tracking engagement, reach, and impressions.
- Unified content generation, publishing, and analytics into one platform, replacing 3+ separate tools; improved speed with reusable TypeScript and RxJS components and lazy loading.

Freelance Full Stack Developer, Self-Employed (Remote, Amravati) **Sep 2023 – Feb 2025**

- Delivered full-stack web applications for multiple clients using Angular, Node.js, Express.js, and MongoDB with user-friendly interfaces.
- Developed RESTful APIs with complete CRUD functionality for business applications.
- Implemented secure JWT authentication and role-based authorization.
- Optimized performance, resolved production issues, and worked directly with clients across the full development lifecycle.

PROJECTS

Jev Model AI-Powered E-commerce Chatbot | GitHub | *React.js, Node.js, Jev Decision Model, OpenRouter, REST APIs, JavaScript*

- Built an AI-powered e-commerce chatbot using the Jev decision model for intent detection, category, budget, and availability.
- Integrated Jev with Node.js to generate structured decisions and perform deterministic product filtering.

Database Backup Manager | GitHub | *Angular, Node.js, Express.js, PostgreSQL, MySQL, MongoDB*

- Built a full-stack tool for PostgreSQL, MySQL, and MongoDB backups using connection strings.
- Implemented AES-256-GCM encryption and automated backup scheduling for secure data protection.

EDUCATION

Master of Computer Applications (MCA) **Aug 2019 – Aug 2021**

Prof. Ram Meghe Institute of Technology & Research (PRMITR), Amravati
